

Progressive Design-Build Innovation Process

Hold Project Update Meetings

- KYTC and ODOT provide project update to the Project Advisory Committee.
- KYTC and ODOT host two open house meetings to update the public.

The Project Advisory Committee includes representatives from government agencies, community groups, and local businesses. Its role is to offer feedback to allow the views of the community to be addressed.

Develop & Evaluate Innovations

- The design-build team develops and reviews innovations to refine or change the project's basic configuration and construction criteria to meet established project goals and objectives or reduce project costs and schedule.
- KYTC, ODOT, FHWA, the design-build team, and local agency experts review innovations for fatal flaws.
- Innovations may be dropped, refined or progressed for further evaluation and feedback.

KYTC - Kentucky Transportation Cabinet
ODOT - Ohio Department of Transportation
FHWA - Federal Highway Administration

Engage Stakeholders

- Recommendations are shared with local agencies and the Project Advisory Committee as appropriate.
- KYTC, ODOT, FHWA, and the design-build team may refine innovations based on local input.

Local entities will gather public feedback from their constituencies as part of their review and comment process for recommended innovations.

Make Final Decision

- KYTC, ODOT, and FHWA make final decisions about recommended innovations.
- The design-build team prepares a final summary report, and the public is notified of accepted innovations.
- The design-build team incorporates accepted innovations into the project design.
